

MD NASIR UDDIN

bsse1310@iit.du.ac.bd | +8801955-612456 | [LinkedIn](#) | [Github](#) | Fazlul Haque Muslim Hall,DU

EDUCATION

University of Dhaka

2022-2026

B.Sc. in Software Engineering(IIT)

- CGPA - 3.65 / 4.00

Netrakona Govt. College(NGC)

2018 - 2020

Higher Secondary School Certificate(HSC)

- GPA - 5.00 / 5.00

WORK EXPERIENCE

Samsung R&D Institute Bangladesh

3 MAR 2025- 30 SEP 2025

Quality Innovation Group (Intern)

- Contributed to quality improvement and innovation initiatives by supporting idea generation and evaluation of software components within an industry-grade R&D environment.
- Performed Software Quality Assurance (SQA) activities including manual and automated testing, and developed test cases and test plans in compliance with EAA standards to ensure product reliability.
- Assisted in test execution, analysis, and defect validation, gaining hands-on experience with automation frameworks, testing tools, and modern QA methodologies.

Bangladesh Mathematics Olympiads

2023 - 2025

Academic Team Member

- Designed and validated 15+ original mathematical problems for regional competitions, contributing to official problem sets used in national Olympiad events.
- Led a team of problem setters and solvers, coordinating task distribution and ensuring timely delivery of high-quality competition materials.
- Supported event logistics and operations for multiple Olympiad rounds, facilitating seamless participation of 500+ contestants across regional competitions.

IIT Software Engineers' Community

2024 - 2025

Organizing Secretary

- Planned and coordinated impactful events and activities to foster collaboration and knowledge sharing among members.
- Enhanced community engagement by managing logistics, communications, and event execution efficiently.

Dhaka University IT Society Trainer

2024- 2025

Trainer

- Conducted hands-on training sessions on programming, Microsoft Excel, and PowerPoint for 500+ students.
- Developed structured training materials and exercises to enhance student learning and engagement.
- Mentored and guided students, improving their technical skills and practical application abilities.

IIT Debating Club

2023- 2024

Organizing Secretary

- Managed Multiple Debate Sessions and workshops planning and organizing

Teacher at Big Bang Academy

2023- 2024

Math Instructors

- Taught and guided over 1000 students in mathematics, ensuring clarity and understanding of core concepts.
- Conducted real-time problem-solving sessions, helping students apply concepts effectively.
- Designed and implemented interactive teaching strategies to enhance engagement and learning outcomes.

ICT Olympiad Bangladesh Season 3

2024- 2025

Ambassador

- Developed leadership, communication, and community-building skills.
- Coordinated between organizers and participants for smooth registration and updates.
- Assisted event operations to ensure smooth participation across all rounds.

PROJECTS

The Professional Accountants' Society | [Live](#) | [Github](#)

Next.js (Full-Stack), TypeScript, Tailwind CSS, MongoDB, AWS S3, REST API, Node.js, Vercel

- Developed and deployed a production-ready UK based full-stack web platform using Next.js and TypeScript, with optimized server-side rendering (SSR) and SEO-friendly architecture.
- Designed a fully responsive, mobile-first UI with Tailwind CSS, reducing page load time up to 35% and improving overall user engagement and accessibility across devices.
- Implemented cloud-based deployment and storage (Vercel + AWS S3), achieving 99.9% uptime, faster content delivery, and reliable performance in a live production environment.

AutoDroid | LLM-Guided Automated Android GUI Testing tool | [Github](#)

Python, Android (ADB, uiautomator2), LLM, NetworkX (UTG navigation), Android SDK

- Developed and extended Droidbot integrating Large Language Models to enhance automated GUI testing coverage for real Android apps.
- Implemented a smart hybrid strategy: Autonomous Exploration for fast initial coverage + LLM Guidance (triggered only when needed) to intelligently target unexplored features, minimizing costly LLM queries.

BCS Exam Management System | [Live](#) | [Github](#)

Next.js 14, TypeScript, Tailwind CSS, FastAPI, PostgreSQL

- Built full-stack examination platform with auto-grading, bulk question uploads, and real-time result analytics serving 1000+ students with <500ms API response time
- Developed RESTful API with role-based access control (Admin, Moderator, Student, Anonymous) managing courses, exams, users, live classes
- Designed scalable PostgreSQL database architecture with 12+ normalized tables supporting concurrent exam sessions, automated result announcements, and performance analytics dashboard

DroidInspect: An AutoUI Inspector | Automated UI Testing Tool | [Github](#)

Python, Java, JavaScript, HTML, CSS Android SDK, ADB, uiautomator, Android Emulator.

- Built an automated Android UI testing tool that generates and executes test cases using ADB and UIAutomator, significantly reducing manual testing overhead.
- Improved testing efficiency and reliability by cutting manual UI testing effort by ~40% and enabling repeatable, emulator-based test execution.

LearnPhysics | Physics based Learning Application | [Github](#)

C++, graphics.h, Physics simulations (Projectile Motion, Vector Analysis, Mechanics)

- Developed an interactive learning application in C++ using graphics to visualize core physics concepts, making learning intuitive and engaging.
- Implemented simulations for projectile motion, vector analysis, and mechanics(momentum), allowing users to observe and manipulate parameters to see real-time effects.
- Enhanced conceptual understanding by combining visualization with interactive controls, helping students learn physics formulas practically.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, PHP, Next.js (Full-Stack), Python, Java (Spring Boot), RESTful API Development
- **Programming Languages:** C, C++, Java, Python, JavaScript, TypeScript
- **Database:** MongoDB, MySQL, SQLite, PostgreSQL
- **AI & Machine Learning:** TensorFlow, Scikit-learn, NumPy, Pandas, Matplotlib, OpenAI API, Data Preprocessing, Model Training & Evaluation
- **Testing:** Selenium IDE/WebDriver, Postman, E2E Testing, Unit & Integration Testing, EAA Testing, API Testing (Manual & Automated)
- **DevOps & Deployment:** Docker, GitHub Actions, CI/CD Pipelines, Netlify, Vercel, Heroku, AWS (Basics), Linux/WSL Environments
- **Tools & Platforms:** Git & GitHub, Visual Studio Code, Figma, Canva, Command Line Tools, API Documentation & Testing Tools

PROFESSIONAL SKILLS

| <ul style="list-style-type: none">• Leadership & Team Management• Problem Solving & Critical Thinking• Communication & Collaboration• Project Planning & Coordination | <ul style="list-style-type: none">• Teaching & Mentorship• Research & Analytical Skills• Adaptability & Continuous Learning |
|--|---|

ACHIEVEMENTS

Gift from MD of Samsung R&D institute Bangladesh

- Excellent performance on Samsung projects; recognized for contributions to Samsung Notes by resolving Voice of Customer (VOC) issues related to notes corruption testing.

Finalist in Project Showcasing at DU ITVerse 2.0, 2024

Solving **300+** problems in different platforms | [Codeforces](#) , [LeetCode](#)

ICPC Asis Dhaka Regional Site Online Preliminary Contest 2022 | Honorable mention

Awarded '**Shera Pathok**' by Bisso Sahitya Kendro three consecutive times (2015-2017)
